DETAILED ACTION

Allowable Subject Matter

1. Claims 1-13 are allowed.
2. The following is a statement of reasons for the indication of allowable subject matter:

Independent claims 1, 2, and 8 claim a method of projection images from a two-dimensional light valve onto a continuously moving object such as taught in figure 1 of US patent to Schiffman (US 4,102,734) (Schiffman uses film instead of a two-dimensional light valve, but those with ordinary skill in the art recognize that film and light valves are interchangeable.) These claims further claim a method of placing a scanning element between the light valve and the object such as taught by Wakebe (US 4,956,655) in figure 1 where two galvanometer mirrors are driven to cause a projected image to move on a screen.) Also it is well known to use scanners with laser projectors such as taught in figure 1 of Lee (US 6,426,781.)

Claims 1, 2, and 8 further claim, however, that the scanning elements is synchronized with the light valve and the continuously moving object in a manner making the image stationary relative to the object. This was not found in the prior art. The prior art revealed either the scanner being used to raster scan a picture such as is done with laser scanners or to move the projected image while the background and therefore the object stayed stationary. No examples of the scanner moving the image in such a way as to make the image stationary relative to the moving object were found. Therefore independent claims 1, 2, and 8 are allowable over the prior art. Claims 3-7 and

9-13 are dependent on claims 1, 2, and 8 and are therefore also allowable. Claims 1-13 are therefore allowable.

Conclusion

With regards to applicant's power of attorney submitted May 16, 2003, since the petition entered on June 12, 2003, was deemed proper and entered, by the office of petitions, the power of attorney will also be deemed proper and is to be entered.

DATE MAILED: 07/15/2003

Notice of Fee Increase on January 1, 2003

If a reply to a "Notice of Allowance and Fee(s) Due" is filed in the Office on or after January 1, 2003, then the amount due will be higher than that set forth in the "Notice of Allowance and Fee(s) Due" since there will be an increase in fees effective on January 1, 2003. See Revision of Patent and Trademark Fees for Fiscal Year 2003; Final Rule, 67 Fed. Reg. 70847, 70849 (November 27, 2002).

The current fee schedule is accessible from: <http://www.uspto.gov/main/howtofees.htm>.

If the issue fee paid is the amount shown on the "Notice of Allowance and Fee(s) Due," but not the correct amount in view of the fee increase, a "Notice to Pay Balance of Issue Fee" will be mailed to applicant. In order to avoid processing delays associated with mailing of a "Notice to Pay Balance of Issue Fee," if the response to the Notice of Allowance and Fee(s) due form is to be filed on or after January 1, 2003 (or mailed with a certificate of mailing on or after January 1, 2003), the issue fee paid should be the fee that is required at the time the fee is paid. If the issue fee was previously paid, and the response to the "Notice of Allowance and Fee(s) Due" includes a request to apply a previously-paid issue fee to the issue fee now due, then the difference between the issue fee amount at the time the response is filed and the previously paid issue fee should be paid. See Manual of Patent Examining Procedure, Section 1308.01 (Eighth Edition, August 2001).

Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.
